THE FEELING OF LIGHT

At C74, we do more than just design lighting—we create atmospheres. Every piece we make is an invitation to experience light in a way that is tactile, powerful, and lasting.

Rooted in a deep respect for craftsmanship and engineering, our work is where elegance meets strength. We work with solid materials, clean forms, and a meticulous eye for detail, ensuring that each design is more than just a source of light—it's a presence in the space.

For us, design is about refined simplicity, the kind that feels just as good as it looks. Our lighting is made to last, to be noticed, to be felt.

We believe that good lighting speaks for itself—but when you stand beneath it, when you see the way it interacts with its surroundings, you'll understand exactly what we mean.

TROLLEY

TROLLEYWHITE

Built to withstand the elements, Trolley is as tough as it is striking. With rugged rubber tires and a sturdy steel frame, this outdoor luminaire is designed to go wherever you need it—a bold presence on wheels.

Finished with a fine-structured powder coating in a range of colors, Trolley is as adaptable as it is durable. Its C74 polyethylene shade comes in classic white, with custom colors available on request.

At 25kg of pure functionality, this isn't just a lamp— it's a statement of strength and versatility.

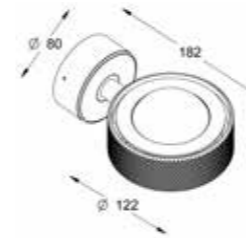

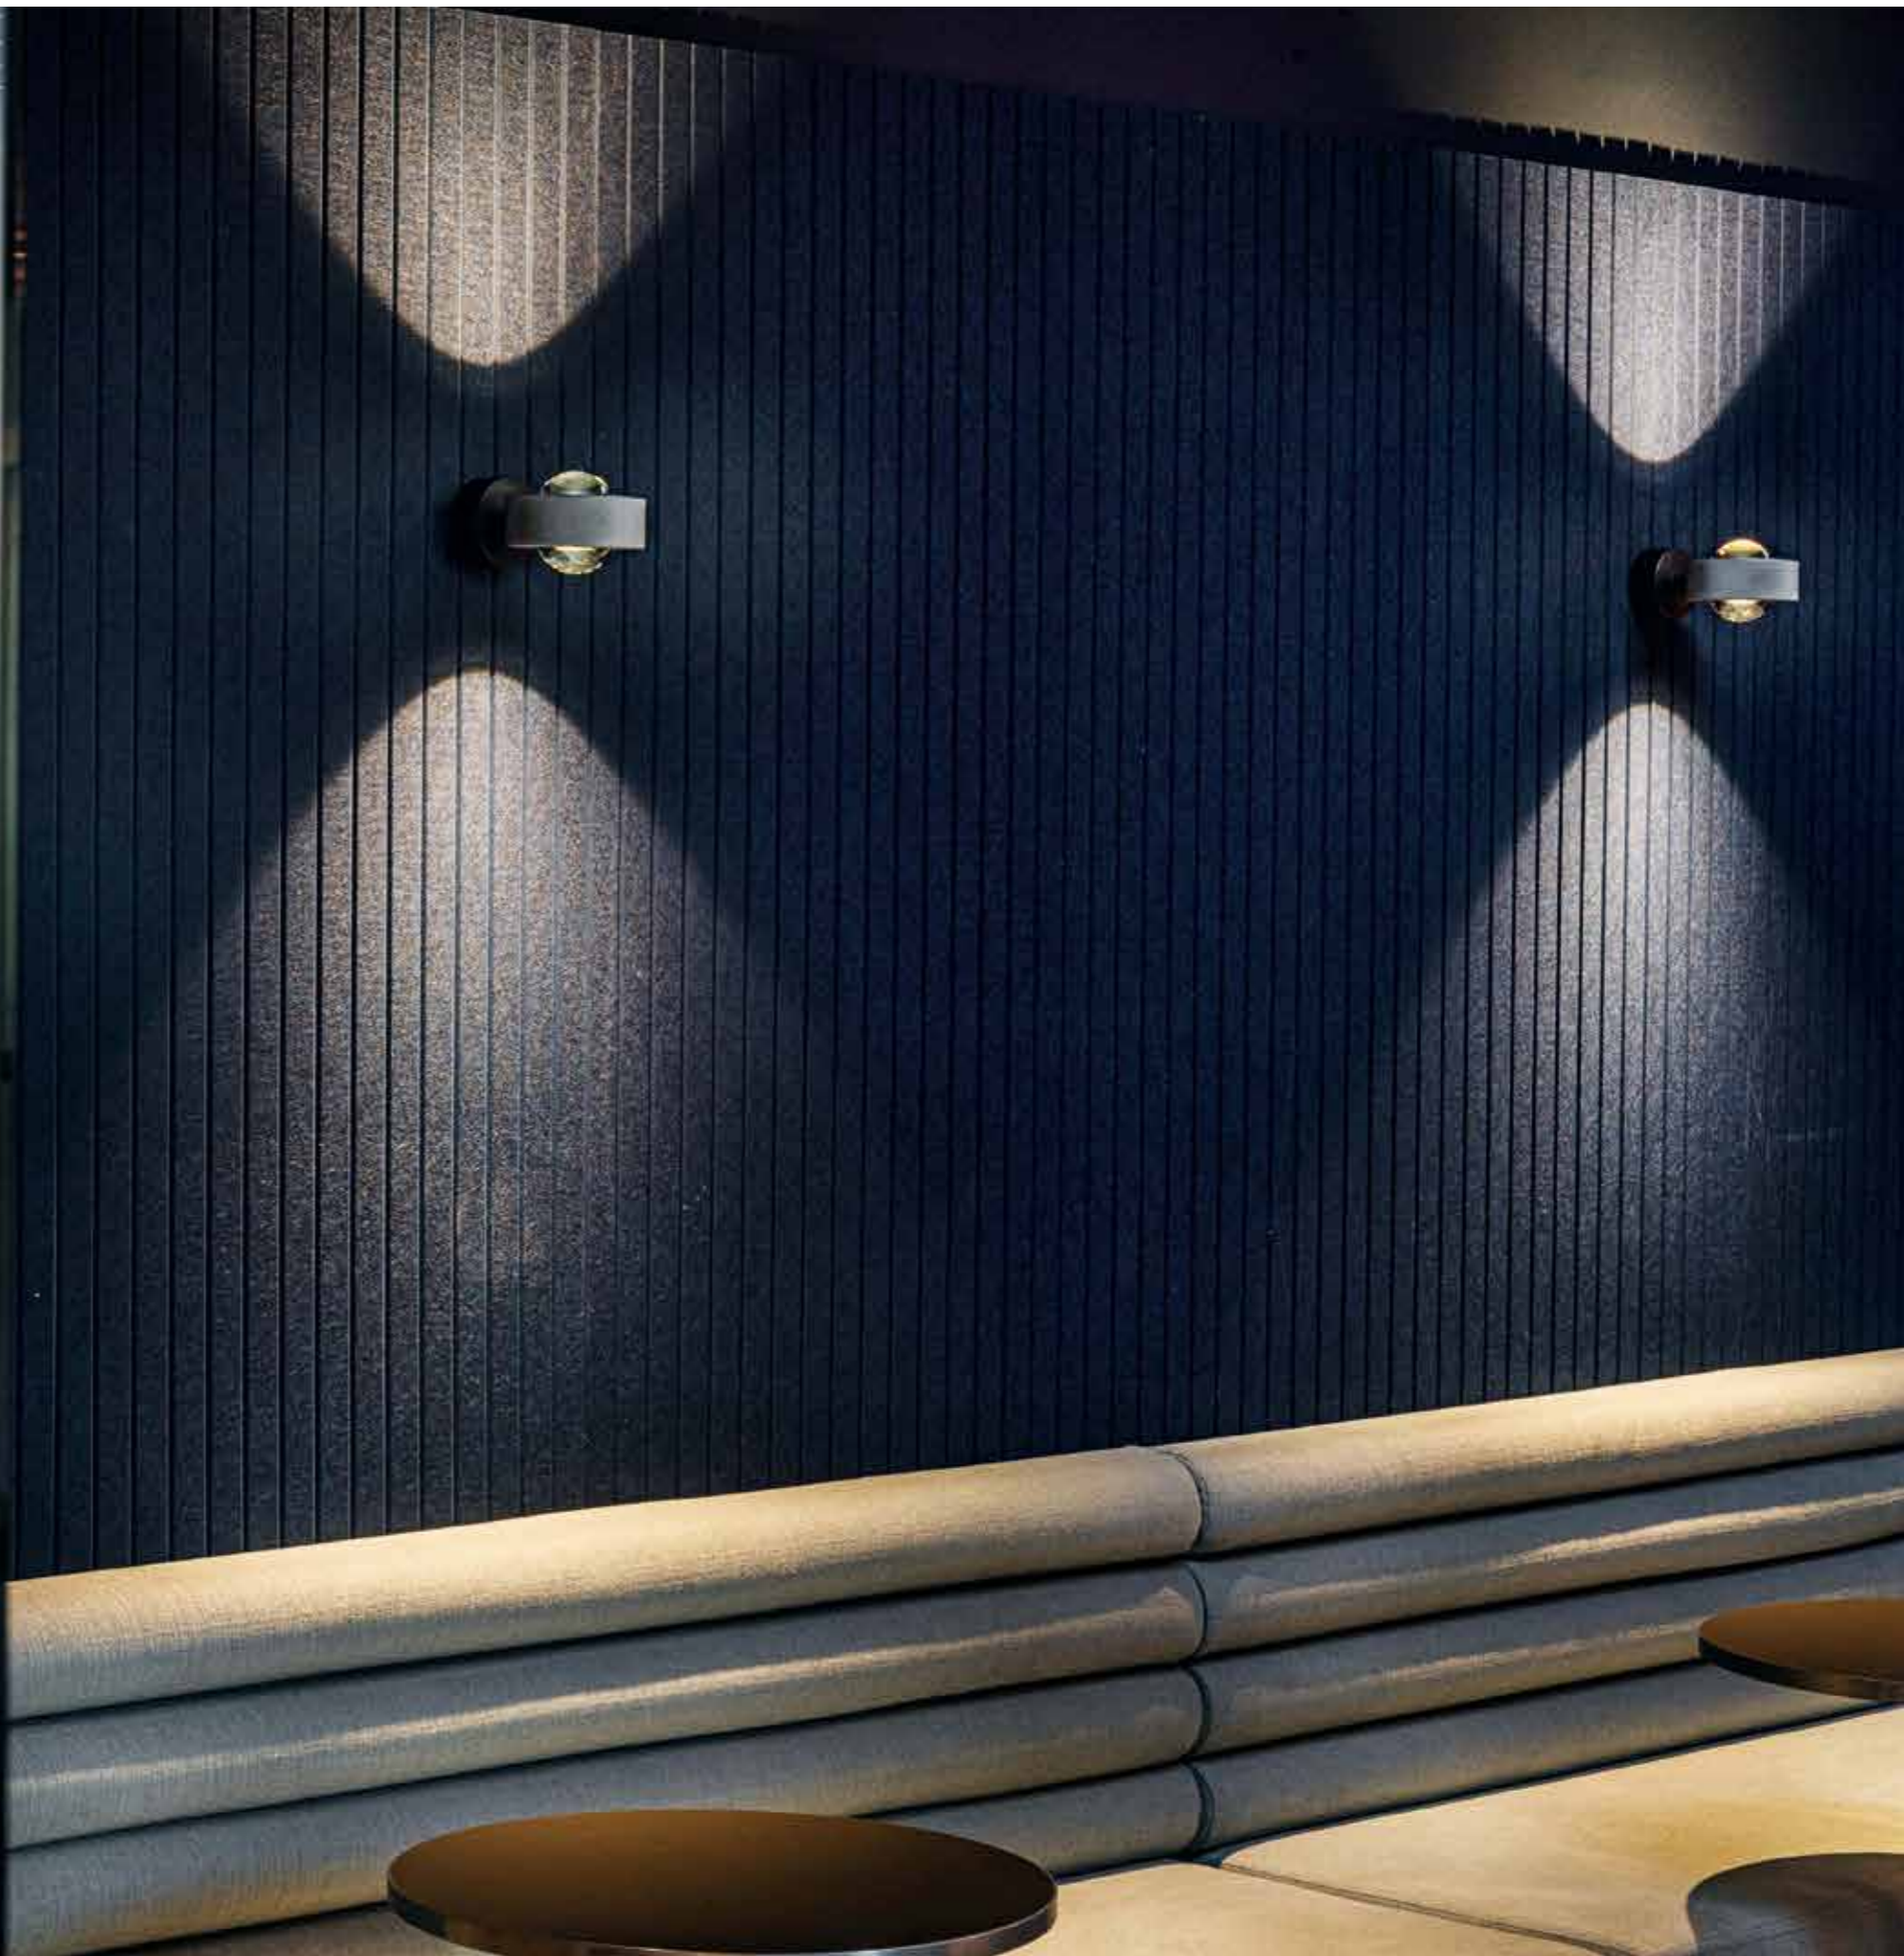

ORB

Strong yet refined, the C74 ORB wall luminaire is more than just a light source—it's a statement. Designed to project light both upwards and downwards, it carves a striking presence on the wall, creating a bold yet atmospheric interplay of light and shadow. At its core, a glass sphere seems to float within the fixture, diffusing light in a way that feels almost mysterious, effortless, alive.

The signature knurling on its body gives it a rugged yet sophisticated edge, balancing strength with elegance. Available in black, gold, brass, and a variety of light options, the ORB is built to adapt to your space—bringing warmth, depth, and character to any setting. Whether in a living room, bedroom, hallway, or beyond, it's not just lighting. It's presence.

ORB SUSPENDED

Strong, refined, and full of character—the C74 ORB suspended isn't just a light; it's a presence. Designed to cast light both upward and downward, it creates an atmosphere that shifts and adapts with the space around it.

At its core, a glass sphere diffuses light with an almost mysterious glow, while the signature knurled detailing on the body adds a rugged yet elegant edge. The ORB is more than decoration—it's about depth, contrast, and the way light interacts with form.

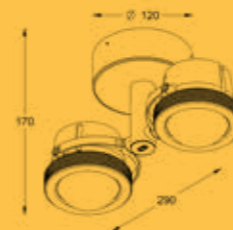

Available in a range of colours and lighting options, the ORB suspension light brings warmth, precision, and a distinct identity to any interior. Light you can see, but more importantly—light you can feel

ORB S
TRACK

BIG BALLS

Meet Big Balls—where rugged functionality meets fearless style. More than just a luminaire, it's a statement piece, built for those who see light as an element of design, depth, and control. With its adjustable beam angles, Big Balls gives you complete flexibility. A simple twist of its knurled Zoom ring lets you shape the light—from focused precision to expansive illumination.

Choose from black, bronze, or gold to match the character of your space. From modern living rooms to cutting-edge offices and bold hospitality spaces, Big Balls brings a fearless, refined presence that defines the atmosphere. Designed to be seen, felt, and experienced —this is light with attitude.

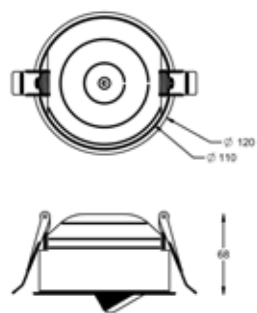

SHOR TY

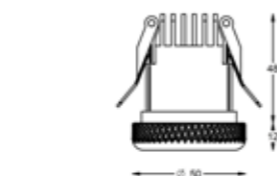

It's all in the name. Shorty is as long as it is wide— compact in form, big in impact. Bold yet refined, its distinct ball joint design allows for full adjustability in every direction, giving you control over light exactly where you need it.

No excess, just pure function and form. Available in a range of mounting options, finishes, light colors, and driver configurations, Shorty adapts to your space with effortless precision. Small in size, strong in presence.

SHORTY IN CUP

SHORTY LONG

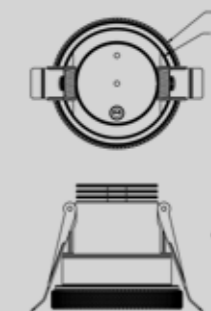

SHORTY RECESSED

SUNK

Clean, refined, and built to last—Sunk is recessed lighting with a focus on precision and simplicity. With its round 8cm form and signature knurled edge, Sunk adds a tactile, industrial detail to any ceiling.

Designed to be fixed, not adjustable, it delivers light with confidence and purpose—no excess, just pure illumination. The interior can be customized in different colors, allowing for a subtle but striking contrast that blends in or stands out as needed. Lighting that's all about presence, not pretense. Built to be felt as much as seen.

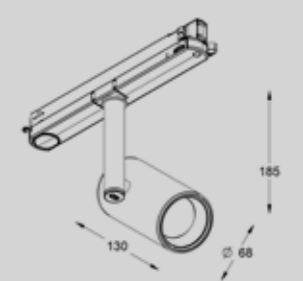

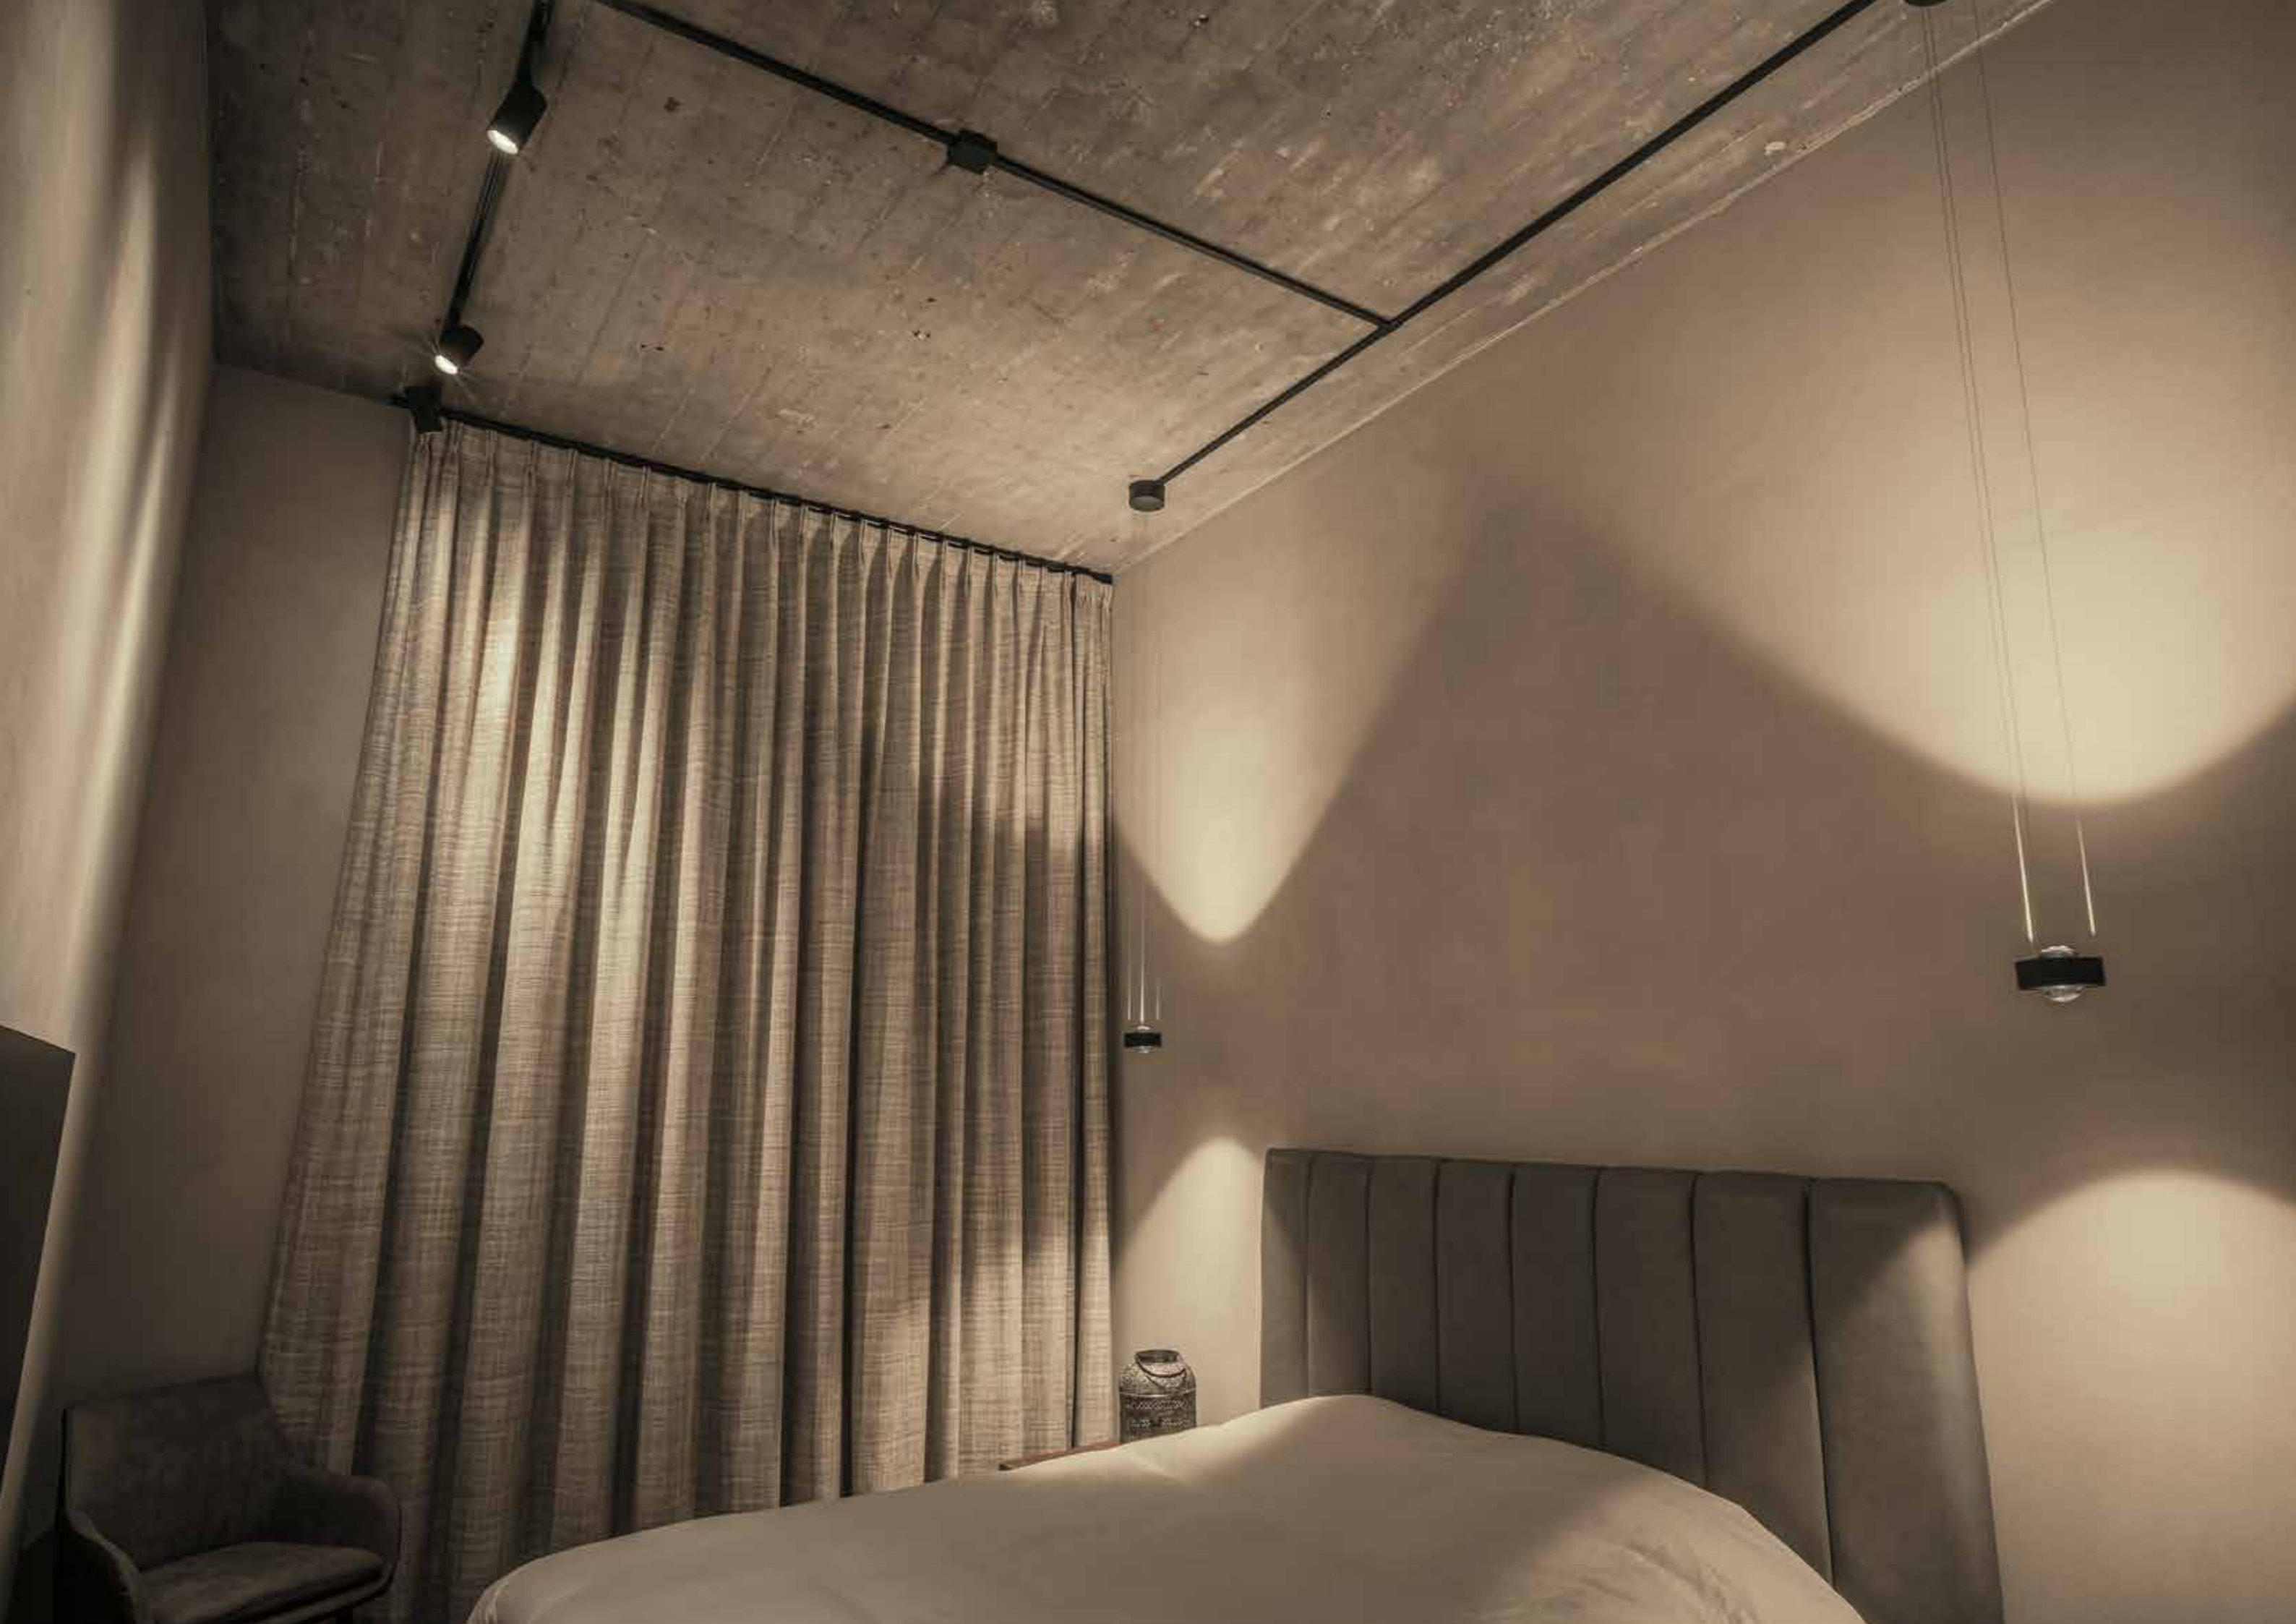

GRIP

Strong, striking, and built for control—Grip is more than a spotlight. It's a statement. With its knurled exterior, Grip carries a rugged elegance that sets it apart. But design is only half the story. Its adjustable light beam gives you complete precision—whether you need a sharp spotlight or broader illumination, Grip delivers with confidence. Designed to define spaces and command attention, Grip is the perfect balance of form and function.

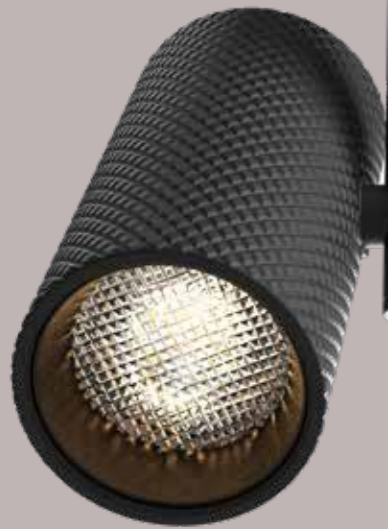

Available in multiple configurations to fit your vision. Because light should work for you.

GRIP S

GRIP S SOLO

GRIP S
SUSPENDED

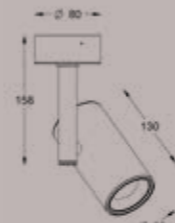

Meet Grip S, the smaller sibling of our signature Grip—designed with the same strength, precision, and presence, just in a more compact form. Rugged yet refined, Grip S brings bold, directional lighting with effortless style. Whether highlighting details or defining a space, it delivers light with confidence and control. Available in multiple colors and configurations, Grip S is built to adapt—small in size, big in impact.

DADDY LONGLEGS

A chandelier, but not as you know it. Daddy Longlegs is C74's vision of modern lighting, where industrial strength meets sculptural elegance. Its spidery form, bold structure, and precision engineering create a statement piece that balances form and function.

Designed with modern techniques and an unmistakable presence, it transforms any space into an atmosphere of depth, movement, and contrast. A chandelier for those who don't follow traditions—they redefine them.

MR ED

Bold, unexpected, and full of personality—Mr. Ed is more than a pendant lamp. With its tube shaped form and distinctive cutouts, it brings a playful edge to any space, shifting in appearance from every angle. Designed to do more than illuminate, Mr. Ed creates a captivating play of light and shadow, adding depth, contrast, and a touch of whimsy.

The asymmetrical cutouts aren't just for show— they shape the light, making every glance a little different from the last. Available in two sizes and compatible with various LED light sources, Mr. Ed adapts to your space while keeping its unmistakable charm.

MR ED SMALL

Like his bigger brother, the pattern cut-outs creates a drawing in which light and shadow complement each other to create a great spherical environment.

ZZOOM

Seamless, precise, and built for control—the C74 Zzoom Recessed is lighting that adapts to your vision. Designed for clean, unobtrusive ceiling integration, it delivers sharp focus or soft diffusion with effortless adjustability.

With a 360° rotation and retractable design, Zzoom Recessed gives you total control over direction and beam angle. A simple twist of the Zzoom ring lets you shift from a narrow spotlight to a wide, ambient glow—bringing depth, contrast, and atmosphere to any space. Available in black or white, this luminaire blends in while standing out—designed to be felt as much as seen

ZZOOM S SURFACE

Part of the Zzoom family, the C74 Zzoom Surface delivers precise, adaptable lighting in a sleek, surface-mounted design. Crafted from aluminium and steel, it blends clean lines with total flexibility, bringing sharp focus or soft diffusion with just a simple adjustment. With 360° adjustability and an interchangeable Zzoom ring, Zzoom Surface gives you complete control over beam angles —shifting seamlessly from narrow precision to expansive illumination. Whether for residential, commercial, or hospitality settings, it adapts to your space with effortless precision.

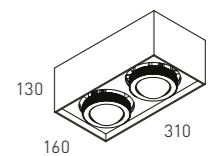

Available in black or white, Zzoom Surface is crafted to be felt as much as seen—an interplay of light, contrast, and movement that transforms any environment.

ZZOOM S ROUND

A study in simplicity, the C74 Zzoom S Round is recessed lighting at its most refined. Designed for seamless ceiling integration, its clean, circular form delivers precise, focused illumination with an understated elegance.

With a soft diffused beam as standard, Zzoom S Round adapts to your needs—a simple adjustment removes the diffuser, transforming it into a sharp, defined spotlight.

Available in black, brass, or gold, with matching Zzoom ring options, Zzoom S Round blends effortlessly into residential, commercial, or hospitality spaces—delivering light that's felt as much as seen.

ELEMENTS

Total freedom of composition. That's what C74 Elements offers—an endlessly adaptable lighting system where form follows creativity, not constraints. Built from two fundamental elements, this modular system allows for virtually any shape or structure, whether custom-designed by architects and lighting designers or selected from a range of standard compositions. With aluminium connecting arms and a fine-structured powder-coated finish available in multiple colors, Elements brings both strength and flexibility. Its C74 polyethylene shade comes in white as standard, with custom colors available on request.

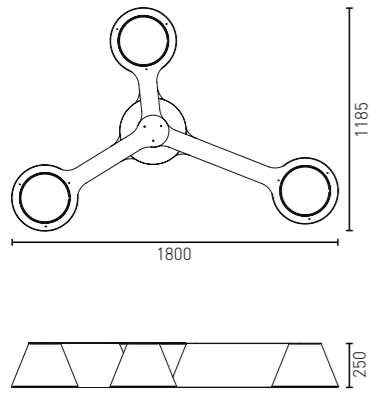

Lighting options range from a simple E27 lamp holder to a bespoke LED system, offering complete control over color temperature and light output. Award-winning since 2014, Elements proves that lighting doesn't just illuminate—it shapes, adapts, and transforms.

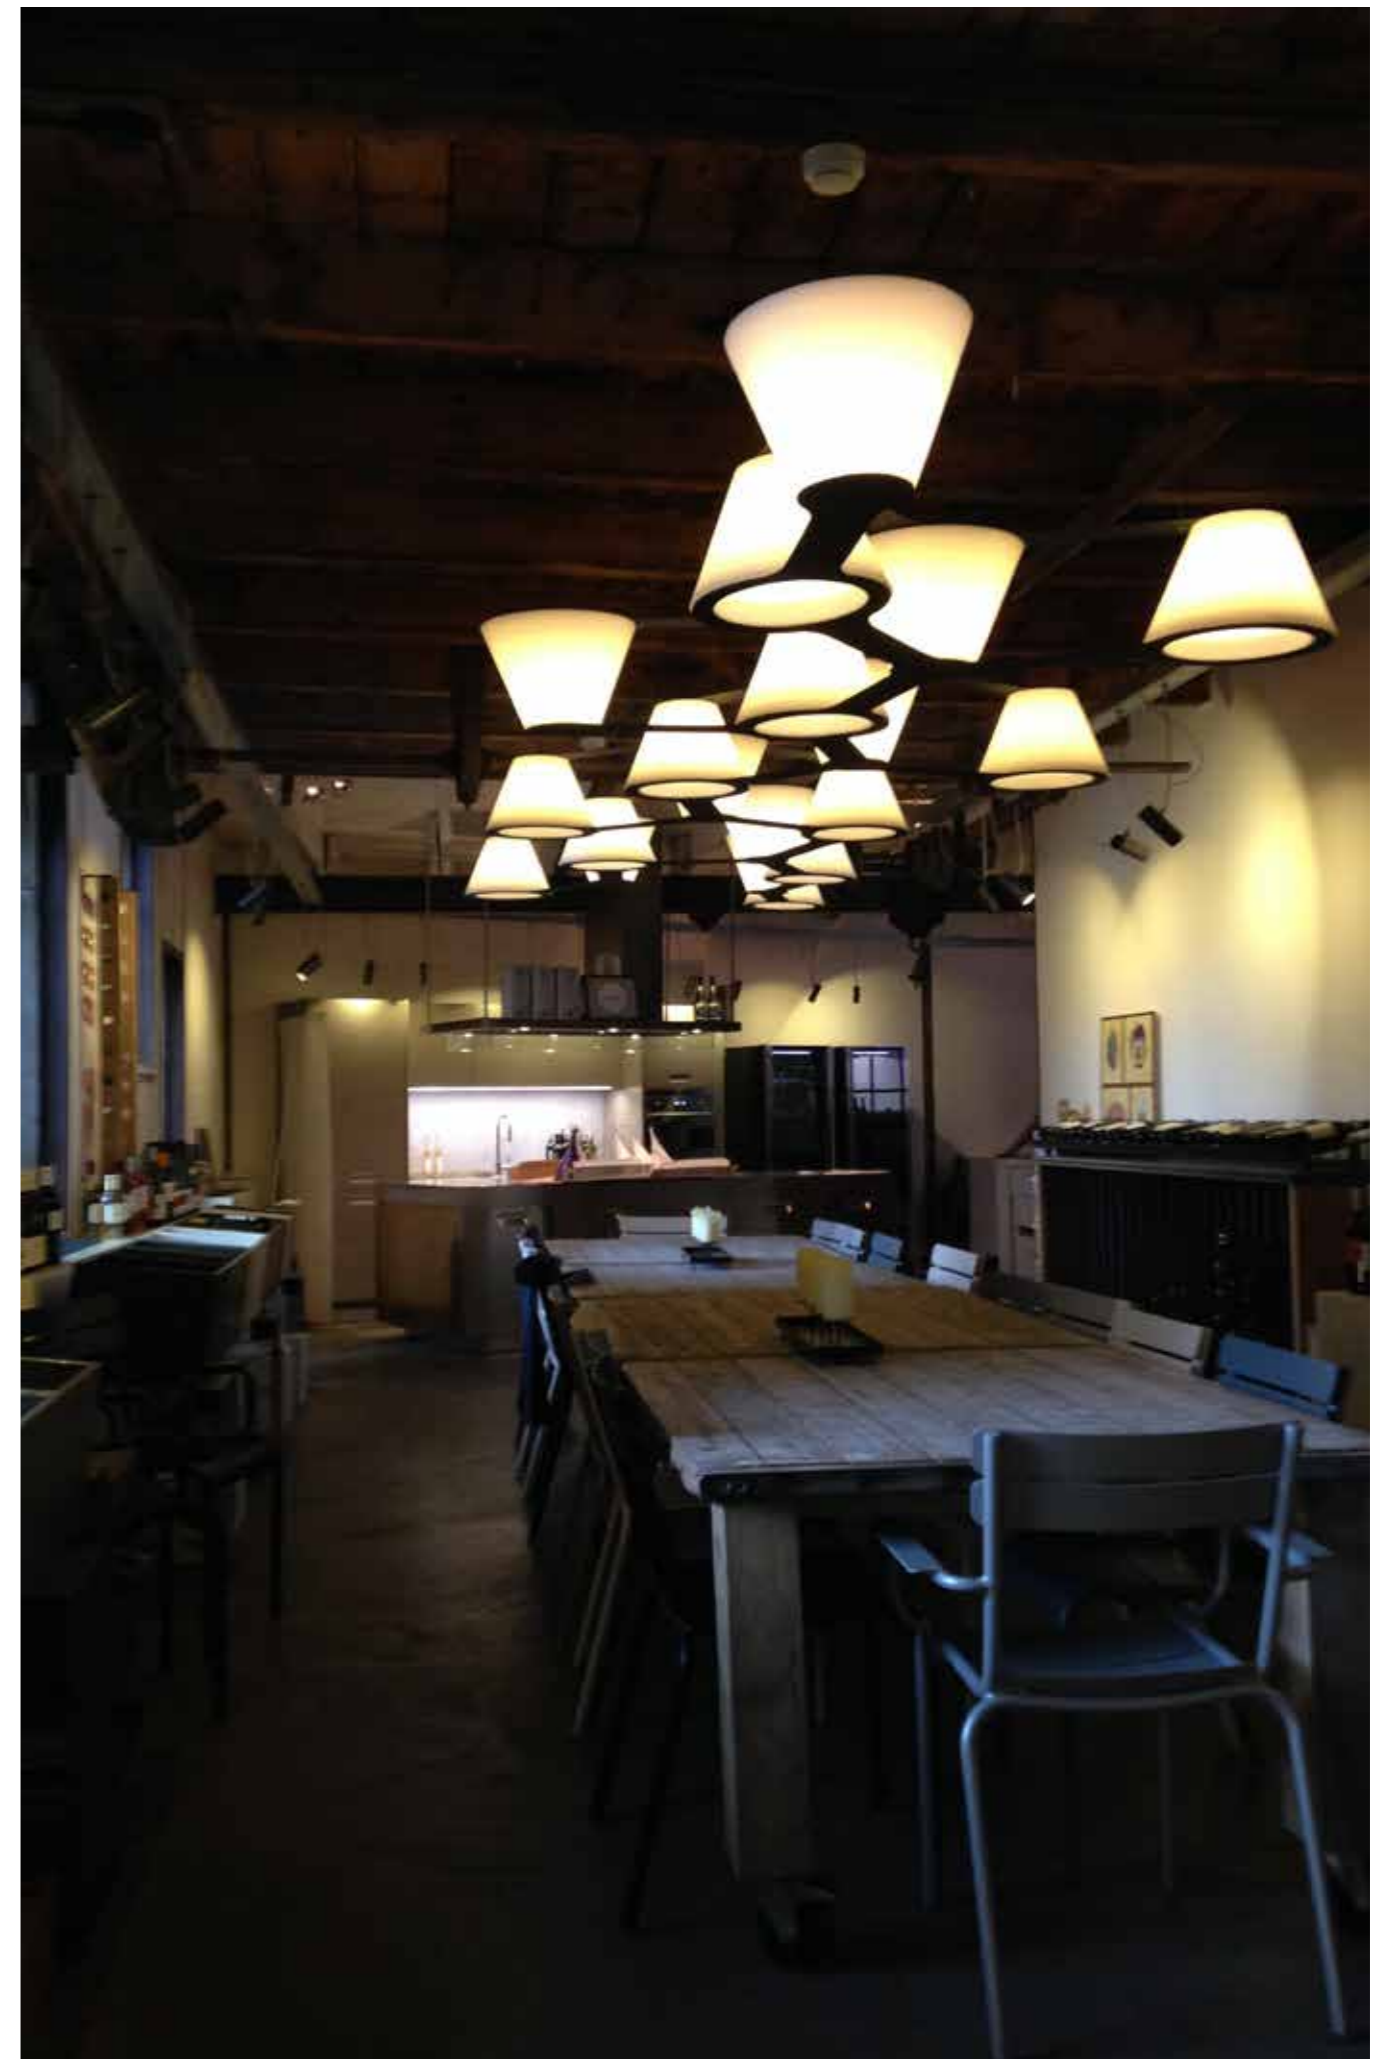

ELEMENTS CONFIGURATION
BIJENKORF, DEN HAAG

The 3A is a standard composition based on the original elements. Unlike the elements, the 3A has uneven arms which changes the sense of perspective.

ELEMENTS 3A

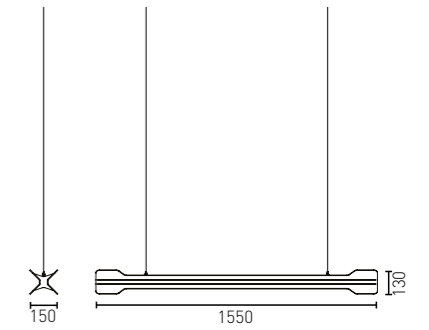

ROCKET

ROCKET BLACK TL5

Sleek, bold, and built to stand out—C74 Rocket is more than just a pendant lamp. With its striking form and effortless presence, it brings focus, depth, and atmosphere to any space. Designed for desks, kitchens, and beyond, Rocket balances clean aesthetics with powerful functionality—a luminaire that doesn't just illuminate, but defines. A statement in any setting. Light with purpose. Light with presence.

ROCKET GREY TL5

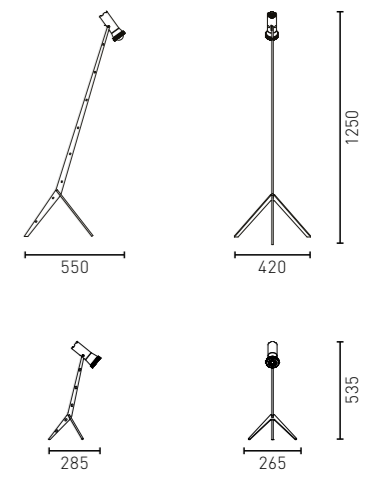

HERON

Inspired by both the graceful heron and Heron of Alexandria, the ancient thinker who studied light, reflection, and optics, C74 Heron is a fusion of elegance and precision—a luminaire designed to move with you. Crafted in the Netherlands, Heron comes in floor-standing and desktop versions, each defined by clean lines, a solid metal frame, and a fine-textured finish. A woven fabric cable runs through the structure in the signature C74 style, a quiet nod to thoughtful craftsmanship.

With its adjustable head and serrated ring, Heron lets you direct light exactly where it's needed— creating focus, warmth, and atmosphere with effortless control. A light designed to move, shift, and adapt—because illumination should feel as natural as it looks.

HERON F BLACK

HERON F BLACK

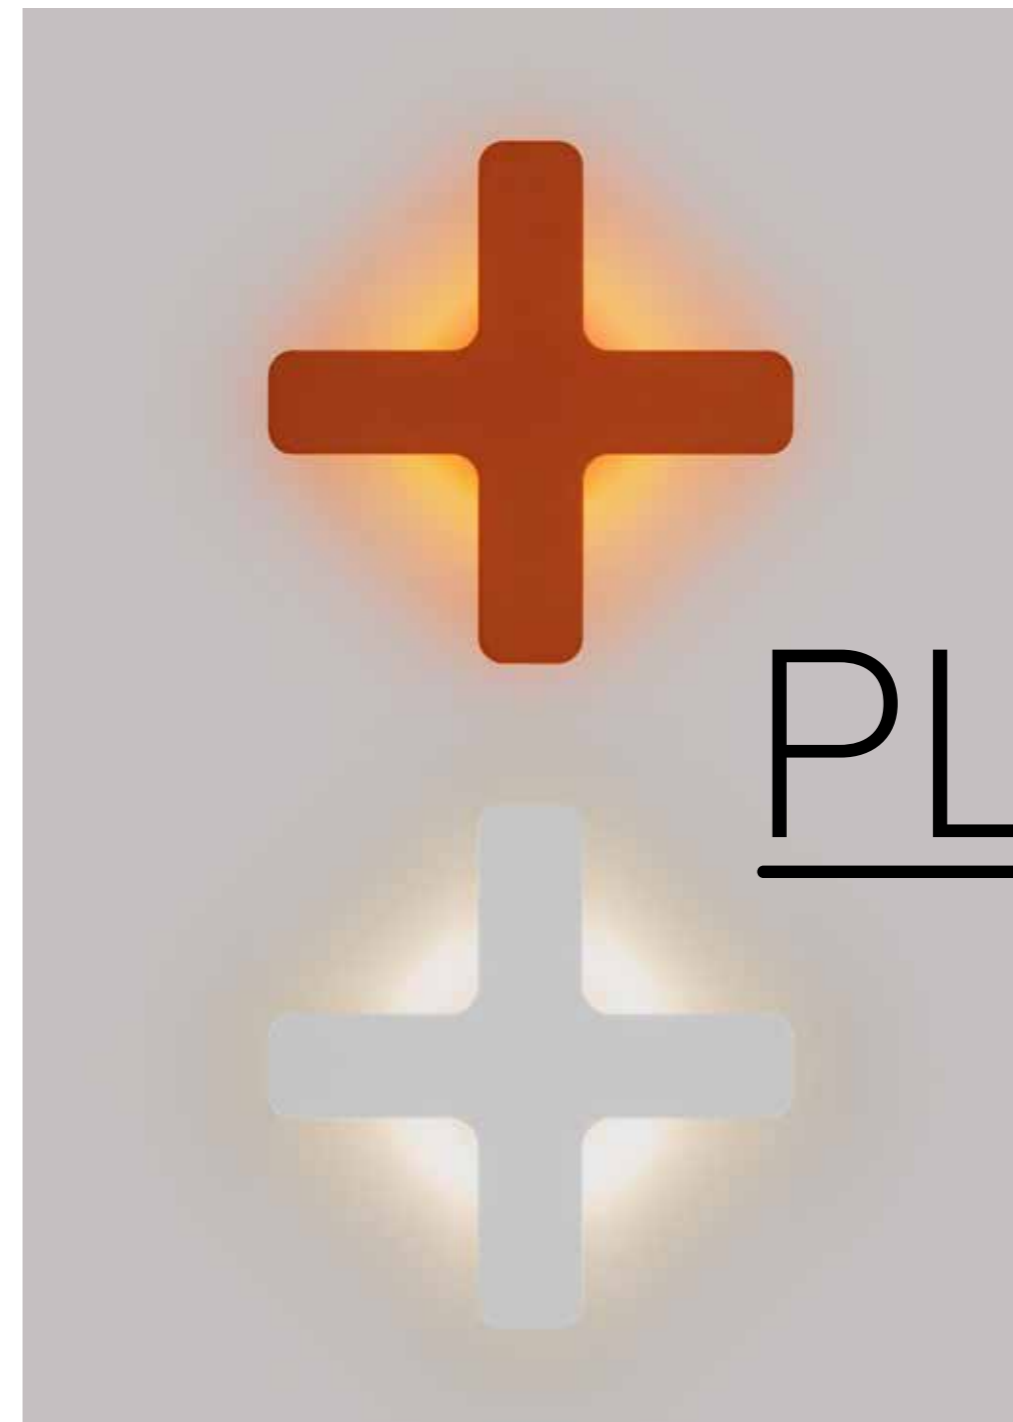

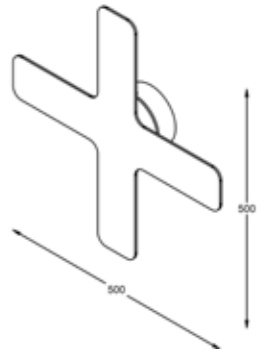

NO BULB

Nobulb is a Led powered light object for your desk. The minimalistic shape is designed to make it appear the lamp is about to tip over, don't worry it won't. The design is made possible by milling and bending two solid aluminium parts that form the base of the lamp.

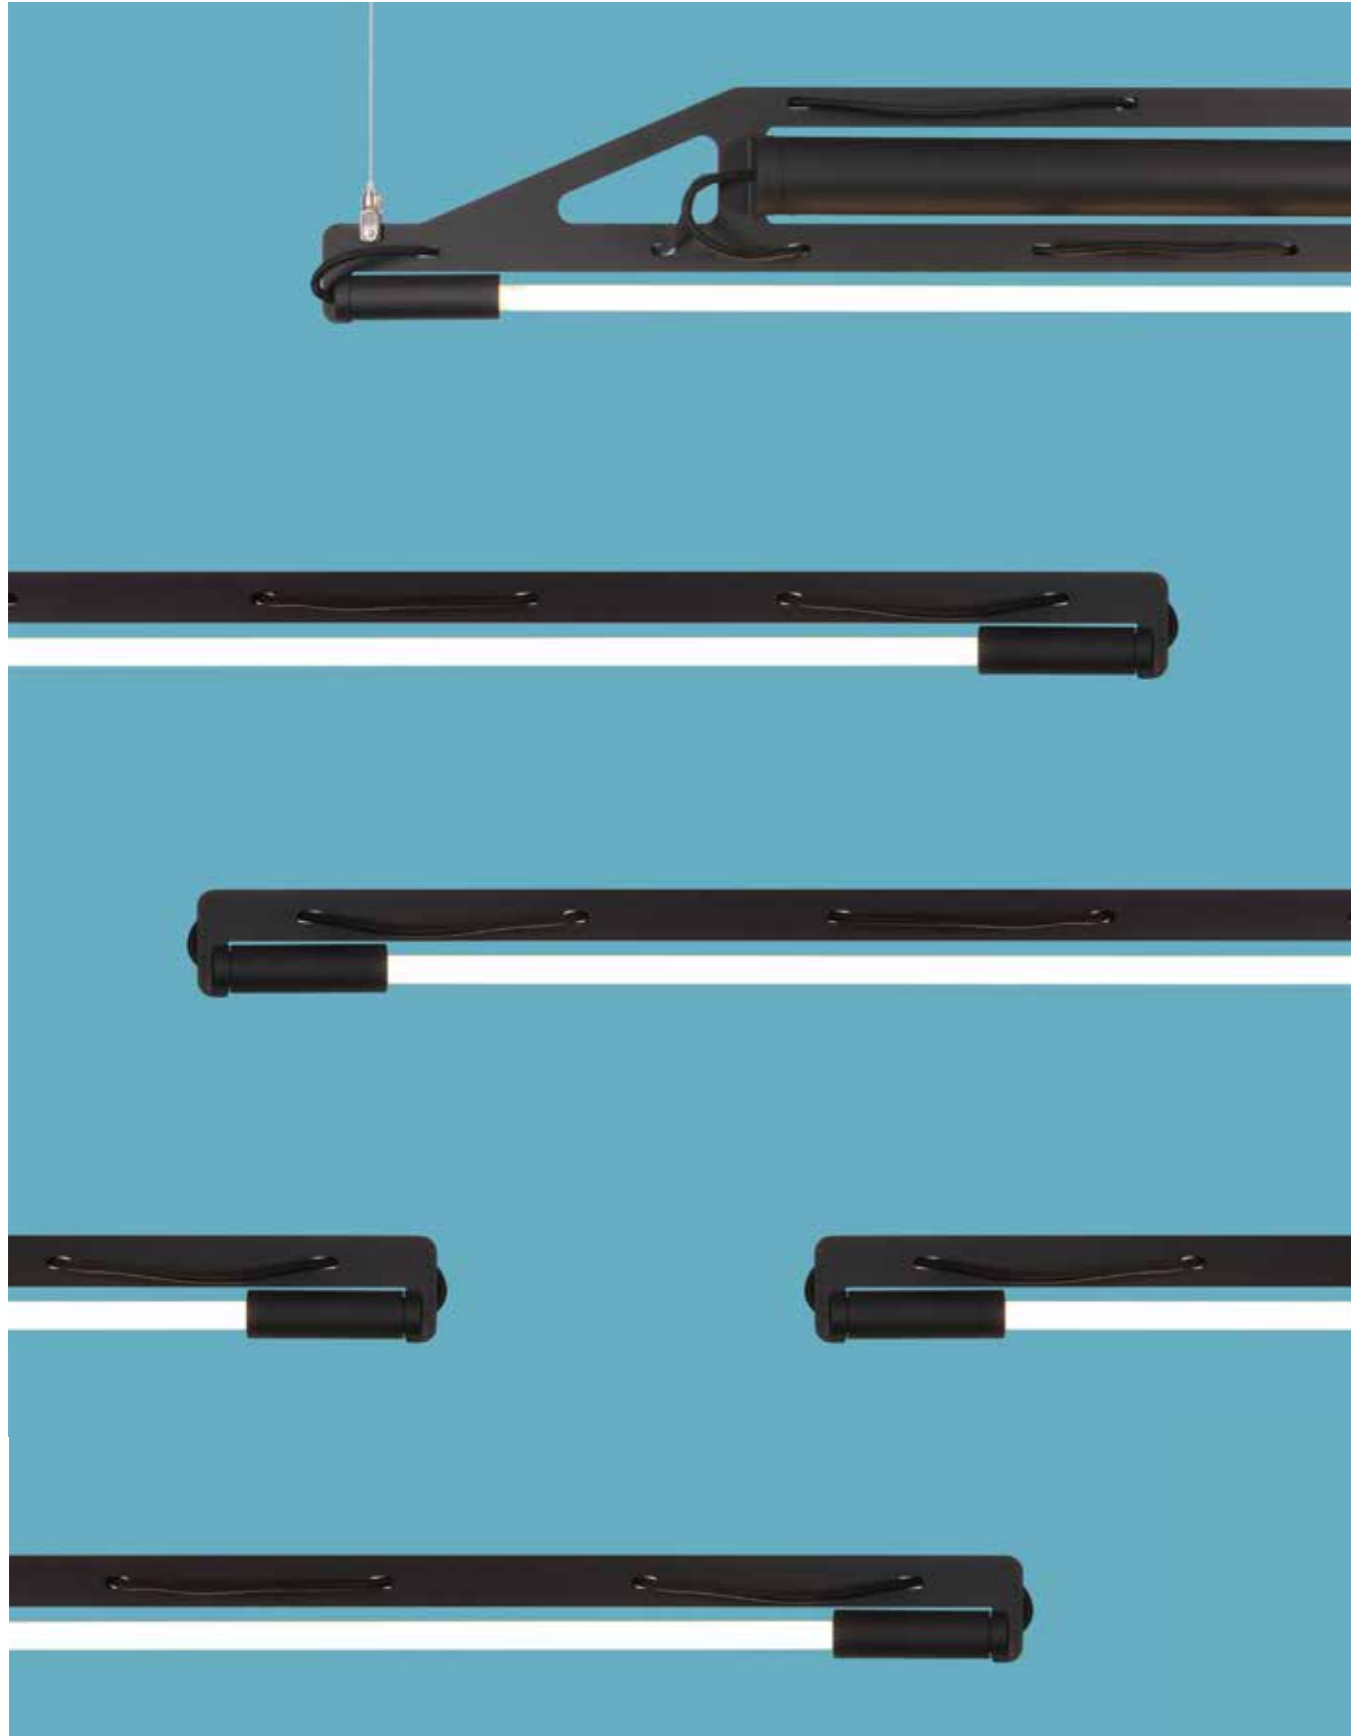

More than a wall lamp, Plus is a statement of balance and atmosphere. Its cross-shaped form doesn't just illuminate—it reflects, diffuses, and transforms, casting a captivating glow that shapes the space around it. Light bounces off the back of the Plus symbol, creating a dynamic play of shadow and contrast— subtle yet striking, soft yet defined. Its versatile design allows for custom arrangements, letting you craft a pattern of light that is both functional and artistic. A luminaire that does more than brighten—it creates presence.

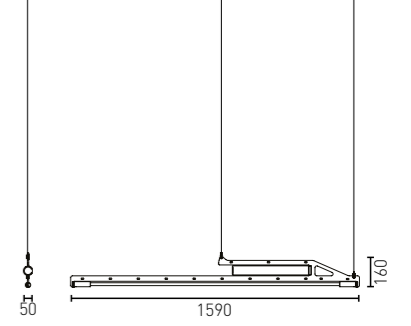

PLUS

TUBER

Yes we know! It looks like a futuristic plasma rifle of some kind, however it really isn't. The design has emerged from predetermining the light source, the tl-5, and combining this with the recognizable C74 style. The Tuber is designed to be asymmetrical and industrial.

SILHOUETTE

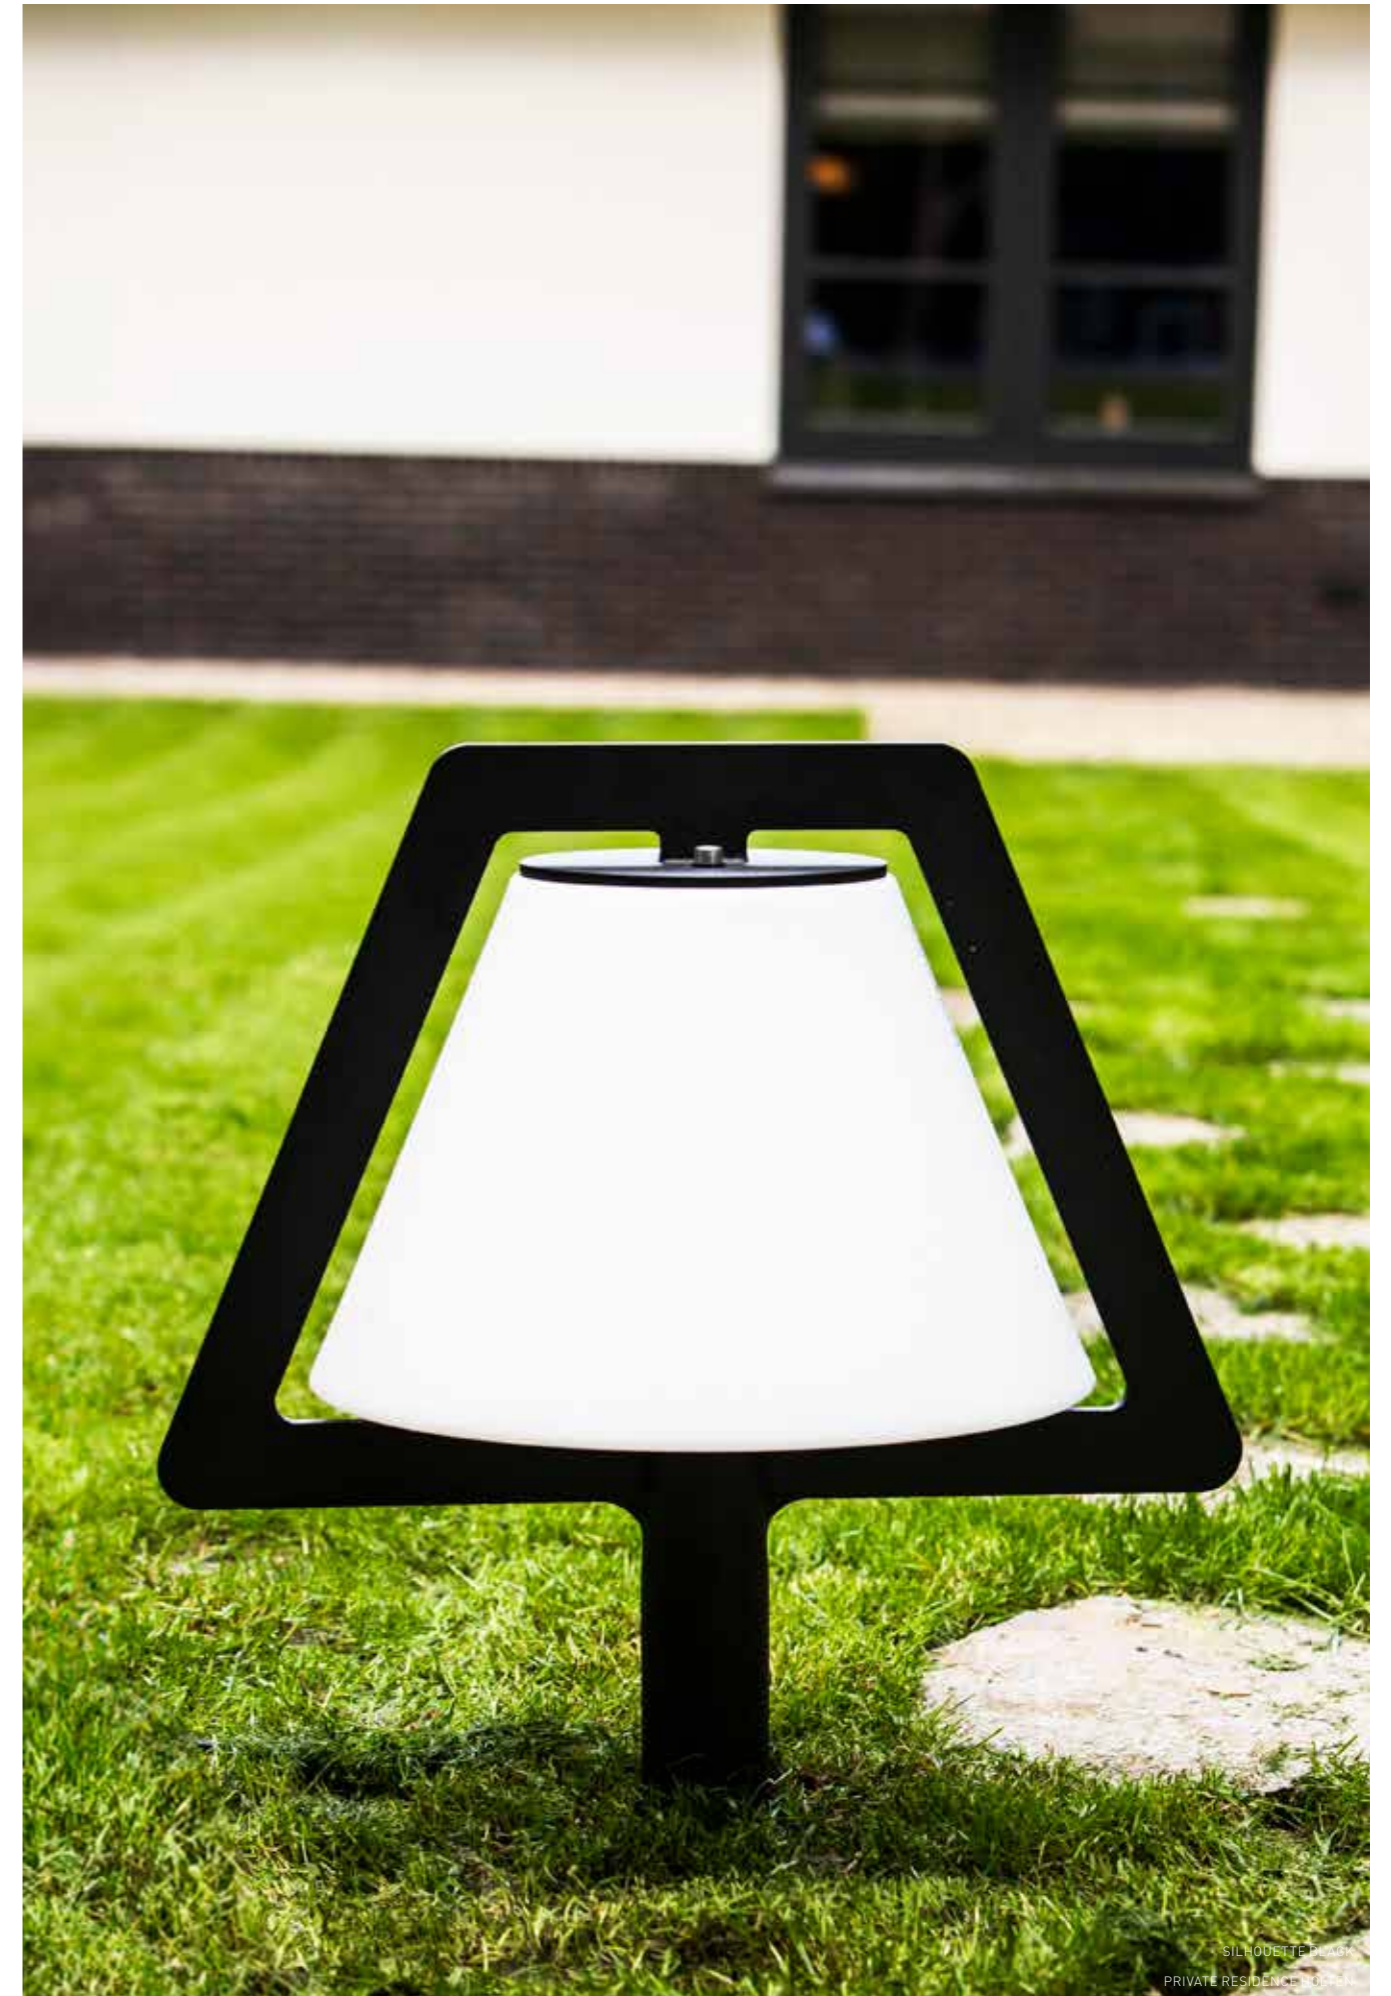

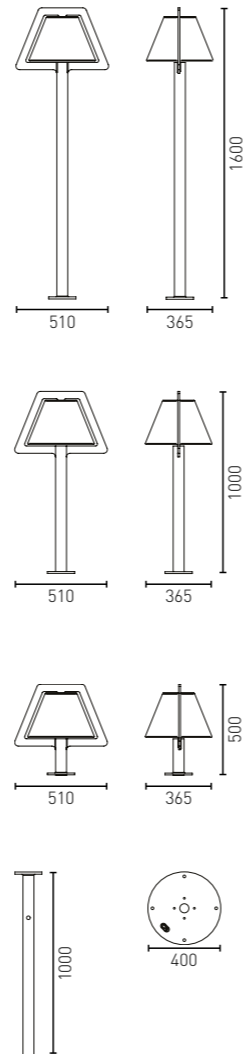

It's all in the name. Silhouette is exterior lighting with presence, bringing form, function, and atmosphere into perfect balance.

Defined by its sturdy steel frame and clean, architectural lines, Silhouette carries the signature C74 style—bold yet refined, rugged yet elegant. Finished in a fine-structured powder coating with custom color options, it blends durability with a timeless aesthetic.

Its C74 polyethylene shade softly diffuses light, while a range of lighting options—from a simple E27 lamp holder to a custom LED source—allows for tailored illumination.

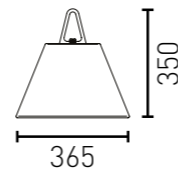

Available in multiple heights, Silhouette is built to define outdoor spaces—a beacon of light, designed to last.
