

C74

COLLECTION

2023-02

Despite careful editing it is not possible to completely rule out printing errors or changes to product specifications at short notice.

MATERIAL & FINISH ETC

- Metal parts are (unless specified otherwise) finished with a fine-structure powder coating as standard.
- Featured colours are standard, other colours are available on request.
- Featured finishes are standard, other finishes are available on request.
- All dimensions are approximate.
- All products are excluded lightsources and drivers unless stated otherwise.
- When a fixture standard has a driver it is a Phase cut dimmable driver

SPECIALS

C74 is always working and developing new Inovative products. Part of the philosophy is to meet individual needs. We like to help where necessary and possible with technical solutions for special designs.

SOCIAL

On www.C74.nl You can find more information, images and downloads of our products. Follow us on Facebook, instagram or subscribe to our newsletter to keep informed of our new products and developments.

WELCOME AND
THANK YOU FOR YOUR
INTEREST IN C74

Straightforward Dutch Design with an industrial edge and a touch of freshness.
The possibilities of the material determine the distinct shapes of C74.

Grown up together under a warm blanket of Dutch sobriety, Paul and Erik Nijhuis (brothers and best friends for most of the time) been interested in design and engineering since childhood.

As a logical consequence a large part of their life is enjoyed working in designing and engineering. The dream to start their own design label was urking in this period, but it appeared very much more than just an idea. Over the years, the desire grows. Till in 2009, they couldn't wait any longer, a milestone is set and Concept74 is a fact.

After working for more than 15 years as engineers Paul and Erik created a no-nonsense design ethic, which is deeply ingrained in their way of designing and developing. The effect of this ethic combined with design, makes surprising practical products where the power lies in simplicity and applicability. The Trolley is a good example: the steel frame, big wheels and hood make the trolley a unique product. And the wheels you bring the light where you need it, how convenient!

In 2011, the product label C74 is launched (whohoe) with the first products being the Trolley and Trolley S. hereinafter the product family grew, and the team of C74 expanded. But above all there is a lot of fun and love developing our collection.

A fresh perspective and the ability of the material determine the clear shapes of C74, so who knows what we will bring in the future!

For now, we invite you to take a look at the collection!

Team C74

TROLLEYWHITE

With Trolley you bring the light where you need it! The steel frame, big wheels and the recognizable C74 light shade makes the trolley an industrial one of a kind product.

DADDY LONGLEGS

DADDY LONGLEGS

Daddy longlegs is C74's vision of a modern chandelier. Modern techniques, an industrial look and a spidery shape merge into a fascinating lighting object.

Daddy Longlegs XL is an enormous chandelier with a diameter of almost 4 meters.

MR ED

Quoting Johann Wolfgang von Goethe:
 "There is strong shadow where there is much light."
 This is what Mr.Ed is about. The pattern cut-outs
 creates a drawing in which light and shadow complement
 each other to create a great spherical environment.

Mr Ed E27 black	A-0301-00B-A2X
Mr Ed E27white	A-0301-00W-A2X
Mr Ed E27 grey	A-0301-00G-A2X
Mr Ed E27 nickel-plated	A-0301-00N-A2X
Mr Ed E27 brass-plated	A-0301-00D-A2X
Mr Ed 2700K black	A-0301-00B-L2X
Mr Ed 3000K black	A-0301-00B-L3X
Mr Ed 4000K black	A-0301-00B-L4X
Mr Ed dim to warm black	A-0301-00B-L5X
Mr Ed 2700K white	A-0301-00W-L2X

Mr Ed dim to warm brass-plated	A-0301-00D-L5X

Like his bigger brother, the pattern cut-outs creates a drawing in which light and shadow complement each other to create a great spherical environment.

Mr Ed S E14 black	A-0302-00B-B2X
Mr Ed S E14 white	A-0302-00W-B2X
Mr Ed S E14 grey	A-0302-00G-B2X
Mr Ed S E14 nickel-plated	A-0302-00N-B2X
Mr Ed S E14 brass-plated	A-0302-00D-B2X

MR ED SMALL

ZZOOM

The name states where the Zzoom distinguishes itself, and no it is not a stargazer! A refined spot of which the angle of the light beam can be adjusted with a simple action. By turning the Zzoom ring, technology on the inside ensures that the focal point changes. Resulting in a dynamic light beam of 5 to 80 degrees, awesome right?

ELEMENTS 3A

ROCKET

ROCKET BLACK TL5

The design brings you back to the Apollo era but in a modern way. Industrial design, laser cut and bended aluminium with a fine structure powder coating. Because of the thin steel cables Rocket appears to float above your table, desk or kitchen.

Rocket led 2700K black	A-0401-00B-L2X

ROCKET GREY TL5

HERON

The heron, a sophisticated floor lamp.
 An aluminum spot on a slim steel frame
 making it a recognizable C74 industrial
 one of a kind product.

Heron F black	A-0901-00B-F0A
Heron F white	A-0901-00W-F0A

Heron T black	A-0902-00B-F0A
Heron T white	A-0902-00W-F0A

HERON F BLACK

NO BULB

NoBulb is a Led powered light object for your desk. The minimalistic shape is designed to make it appear the lamp is about to tip over, don't worry it won't. The design is made possible by milling and bending two solid aluminium parts that form the base of the lamp.

NoBulb 2700K black	A-0501-00B-L2X
NoBulb 2700K white	A-0501-00W-L2X
NoBulb 2700K grey	A-0501-00G-L2X
NoBulb 2700K orange	A-0501-00A-L2X
NoBulb 2700K nickel-plated	A-0501-00N-L2X
NoBulb 2700K brass-plated	A-0501-00D-L2X

PLUS

You do the math! The Plus is a wall/ceiling mounted lamp. A strong Led illuminates its surrounding surface through a big "plus-size" reflector. The same reflector seen from the front contrasts with the illuminated background.

Plus 2700K black	A-0701-00B-L2X
Plus 3000K black	A-0701-00B-L3X
Plus 4000K black	A-0701-00B-L4X

Plus 4000K nickel-plated	A-0701-00N-L4X
Plus dim to warm nickel-plated	A-0701-00N-L5X

TUBER

Yes we know! It looks like a futuristic plasma rifle of some kind, however it really isn't. The design has emerged from predetermining the light source, the tl-5, and combining this with the recognizable C74 style. The Tuber is designed to be asymmetrical and industrial.

Tuber TL5 black	A-0601-00B-T2X
Tuber TL5 white	A-0601-00W-T2X
Tuber TL5 grey	A-0601-00G-T2X

HANG UP

HANG UP BLACK

Slim - a fresh looking table with an industrial edge. The clear forms of the open cut steel frame stands in contrast to the chosen material. This makes the table robust yet light, transparent and slim. Ease of use is the most important aspect, therefore a strip is placed in the middle of the table for storing items. Clearing the table has never been easier and yet everything stays within reach.

To improve mobility around the table, the legs are placed further inwards. Besides the fact that you will bump your toe less quickly, it means that when it is really necessary, there are plenty of extra places to be created at the corners of the table. Because there is no leg in the way, a bench fits well with the table.

Slim is C74's vision of how a table can be in a changeable and vibrant environment and is designed and applicable for daily intensive use.

SLIM

Slim wall bench black - oak	D-0101-00B-X0X
Slim wall bench white - oak	D-0101-00W-X0X
Slim wall bench grey - oak	D-0101-00G-X0X

Parties, bbqs, drinks, dinners, clear blue skies. Together with friends and family enjoying life. The Picknick is C74's vision of how this should be done. The Picknick is designed for intensive use, and will withstand a lively beer festival with ease. The sleek steel frame makes it possible to create a much slimmer design that almost looks as if the tabletop and the benches are floating. The top and the seats are made of durable Iroko wood. All this makes the Picknick look lighter, more modern and fresher than a traditional picnic table. The weight of the frame and the outward standing legs make the picnic very stable, therefore you can easily sit with many people. In the middle of the Picnic there is a holder for the matching parasol. Which is super convenient to sit dry during rain and be protected from the sun in good weather.

REPEAT

REPEAT

REPEAT

More than just a fruit bowl! Repeat is a suggestive volume where at the top a bowl is eroded. The volume is divided into ribs and air, making the bowl look both robust and heavy as light and transparent. Sturdy industrial design; an addition to any dining table or kitchen.

Repeat black	F-0100-00B-X0X
Repeat white	F-0100-00W-X0X
Repeat grey	F-0100-00G-X0X
